

## STRATEGIC PARTNERSHIPS IN RESPONSE OF THE COVID-19 SITUATION

### WHAT ARE THE AIMS AND PRIORITIES OF A STRATEGIC PARTNERSHIP IN RESPONSE OF THE COVID-19 SITUATION?

The COVID-19 pandemic has not only limited the way people can relate to each other and perform their most basic every-day-tasks, but has also had a significant impact on the regular delivery of education, training and youth policies. At such a critical time for our societies, access to education is proving, more than ever, to be essential to ensuring a swift recovery, while promoting equal opportunities among people of all backgrounds.

In light of these exceptional circumstances, the Erasmus+ Programme takes up the challenge to confirm its role as the main EU instrument supporting innovation in education, training, youth and sport as well as providing opportunities for personal, socio-educational and professional development of people in Europe and beyond, with the aim of leaving no-one behind.

In order to respond to the circumstances created by the COVID-19 pandemic, in 2020 the Erasmus+ programme will exceptionally support:

- **Partnerships for Digital Education Readiness (in the fields of school education, vocational education and training, and higher education):** these projects aim at equipping education and training systems to face the challenges presented by the recent sudden shift to online and distance learning, including supporting teachers to develop digital competences and safeguarding the inclusive nature of learning opportunities.

The current COVID-19 crisis has greatly accelerated the need for modernisation and digital transformation of education and training systems across Europe. The goal is to reinforce the ability of education and training institutions to provide high quality, inclusive digital education. The focus will be on building capacity to implement online, blended and distance teaching and learning; to develop digital pedagogical competences of educators, enabling them to deliver high quality inclusive digital education; and to develop and/or use high quality digital content such as innovative online resources and tools. The partnerships will promote networking of institutions across the EU, sharing of resources and expertise, and collaboration with digital technology providers and experts in educational technologies and relevant pedagogical practice, to develop tailor made solutions adapted to local challenges and realities.

- **Partnerships for Creativity (in the fields of youth, school education and adult education):** The COVID-19 crisis has hit the cultural and creative sectors particularly hard. Partnerships for Creativity aim to engage organisations in the fields of formal, informal and non-formal education, together with those from the creative and cultural sectors to stimulate European awareness and empower people of current and future generations – regardless of social and cultural background – to be successful innovators in their local environment. One of the goals is also to equip young people and adults with the necessary tools and competences needed to come up with creative and innovative solutions to face unprecedented risks, and societal challenges as well as to unveil opportunities that can be sought in a critical context. This action aims to enhance skills development and competences that reinforce creativity, as well as to boost quality, innovation and recognition of youth work that support the creative potential of youth, thus contributing to the recovery resilience of the cultural and creative sectors.

These projects reinforce cross-sectoral cooperation with a focus on creativity, European citizenship and cultural awareness of all citizens; through this action, the Programme can also enhance social inclusion through arts, by fostering innovative participatory and intercultural dialogue approaches linking education, training and youth stakeholders with the cultural and creative sector grassroots organisations.

Partnerships with the formal, informal and non-formal educational sector focusing on young people and professionals can help to address both the major societal challenges that cultural and creative sectors are facing in light of this global crisis but also the opportunities for them that the crisis has brought to the fore. Ultimately, this cross-sectoral cooperation should complement efforts to help the cultural and creative sectors recover from the crisis in terms of green, more digital and resilient recovery, thereby also contributing to the EU's strategic priorities.

### WHAT ARE THE TARGET GROUPS AND PRIORITIES ADDRESSED BY STRATEGIC PARTNERSHIP IN RESPONSE OF THE COVID-19 SITUATION?

Irrespective from the field impacted by the project, Strategic Partnerships are open to any type of organisation active in any field of education, training and youth or other socio-economic sectors as well as to organisations carrying out activities that

are transversal to different fields (e.g. local and regional authorities, recognition and validation centres, chambers of commerce, trade organisations, guidance centres, cultural organisations). Depending on the priority and the objectives addressed by the project, Strategic Partnerships should involve the most appropriate and diverse range of partners in order to benefit from their different experiences, profiles and specific expertise and to produce relevant and high quality project results.

To be funded, projects must address one of the following priorities:

- **Innovative practices in a digital era:** The Erasmus+ Programme will support the taking up of digital technologies and of innovative and open pedagogies in education, training, youth and sport. Particular attention will be given to promoting gender equality and addressing differences in relation to the access and use by underrepresented groups. The Programme will also support the use of the European frameworks on digital competences of educators, citizens and organisations, including the development and use of open educational resources, open textbooks, and free and open source educational software. Priority will be given to actions that promote innovative methods and tools for teaching, training, learning and assessment as drivers of improvements in lifelong learning. Erasmus+ must continue to be mobilised to support the process of recovery from the COVID-19 pandemic and demonstrate responsiveness, adaptability and flexibility. Therefore, priority will be given to actions that contribute to building digital education readiness and to mitigating the impact of the crisis on some of the hardest-hit sectors.
- **Skills development and inclusion through creativity and the arts.** Priority will be given to educational activities and lifelong learning, informal and non-formal learning and youth work (including digital youth work) with a cultural and creative component to help young generations and professionals to acquire skills and competences, including digital competences, that reinforce creativity in education, as well as to boost quality, innovation and recognition of youth work that support the creative potential of youth, thus contributing to the resilience of the cultural and creative sectors. Priority will be given to actions that can contribute to job creation, sustainable development and social inclusion through the arts, by fostering innovative participatory and intercultural dialogue approaches linking education, training and youth stakeholders with organisations in the cultural and creative sectors.

In addition, projects may focus on other horizontal or sector specific priorities defined in the previous section “Strategic Partnerships in the field of education, training and youth - What are the aims and priorities of a Strategic Partnership”.

### WHAT ARE THE ACTIVITIES SUPPORTED IN A STRATEGIC PARTNERSHIP IN RESPONSE OF THE COVID-19 SITUATION?

Over the lifetime of a project, and depending on the type of Strategic Partnership, projects may typically realise a broad range of activities, for example:

- activities that strengthen the **cooperation and networking** between organisations;
- testing and/or implementation of **innovative practices** in the field of education, training and youth;
- activities that facilitate the **recognition and validation of knowledge, skills and competences** acquired through formal, non-formal and informal learning;
- activities of **cooperation between regional authorities** to promote the development of education, training and youth systems and their integration in actions of local and regional development;
- activities to better prepare and deploy the education and training of professionals for **equity, diversity and inclusion** challenges in the learning environment;

As a **response to the COVID-19 situation**, it is particularly relevant that Strategic Partnerships implement the following activities (non-exhaustive list):

- Partnerships for Digital Education Readiness:**
- activities to deploy digital tools and methods to deliver quality and inclusive education through online/virtual means, including blended teaching, training and learning;
  - activities to support learners, teachers and trainers in adapting to online/ distance learning;
  - activities to teach and promote safer and more responsible use of digital technology;
  - activities to understand how best to incorporate digital online technology into subject-specific teaching, training and learning, including work based learning.

**“Partnerships for Creativity”:**

- activities linked to reinforce all aspects of creativity in non-formal and formal education, by enhancing the development of skills and competences;
- measures to accelerate digital transformation and use of digital means to adapt to the way creative products, cultural goods and events are created, managed, disseminated, accessed and consumed;
- activities to promote active citizenship and social inclusion through arts, especially among young people;
- activities to nurture talents and foster entrepreneurship (including social entrepreneurship) in cultural and creative domains;
- learning tools and resources, materials, courses and training modules to foster creativity, culture and multiculturalism;
- artistic and cultural initiatives with an educational dimension or aimed at raising awareness on societal issues and European matters (theatre plays, exhibitions, music performances, discussion fora, etc.);
- activities to establish or reinforce networks and new collaboration models (notably through virtual means) stimulating intercultural engagement and flourishing of creative mind-sets among citizens, in particular young people;
- transnational mobility activities that promote learning opportunities in creative spaces and cultural heritage sites, including creative residencies for artists and creators in the fields of non-formal/formal education and youth work.

**Virtual cooperation** opportunities are key to successful Partnerships in the COVID-19 context. In particular, projects in the field of school education and adult education are strongly encouraged to use the **eTwinning, the School Education Gateway and EPAL Platforms** to work together before, during and after the project activities.

Partnerships may also organise transnational **learning, teaching and training activities** of individuals (including blended mobility), in so far as they bring added value in the achievement of the project's objectives. Some of these activities are particularly relevant in one or more fields of education, training and youth. For a more detailed description of the supported activities, see Annex I.

**WHO CAN TAKE PART IN A STRATEGIC PARTNERSHIP IN RESPONSE OF THE COVID-19 SITUATION?**

As a general rule, Strategic Partnerships target the cooperation between organisations established in Programme Countries. However, organisations from Partner Countries can be involved in a Strategic Partnership, as partners (not as applicants), if their participation brings an essential added value to the project.

In addition to the organisations formally participating in the project and receiving EU funds, Strategic Partnerships may also involve associated partners from the public or private sector who contribute to the implementation of specific project tasks/activities or support the dissemination and sustainability of the project. For contractual management issues, associated partners are not considered as part of the project partners, and they do not receive funding. However, their involvement and role in the project and different activities have to be clearly described.

**WHAT ARE THE CRITERIA USED TO ASSESS A STRATEGIC PARTNERSHIP IN RESPONSE OF THE COVID-19 SITUATION?**

Here below are listed the formal criteria that a Strategic Partnership in the COVID-19 context must respect in order to be eligible for an Erasmus+ grant:

In addition, if the Strategic Partnership foresees any of the following transnational learning, teaching and training activities, the relevant additional eligibility criteria indicated in section “What are the criteria used to assess a Strategic Partnership – Additional eligibility criteria” of this Guide must be respected.

Applicant organisations will be assessed against the relevant **exclusion and selection criteria**. For more information please consult Part C of this Guide.

### AWARD CRITERIA

Depending on the objectives of the project, the participating organisations involved, the expected impact, and other elements, Strategic Partnerships can be of different sizes, and adapt their activities accordingly. ### WHAT ARE THE FUNDING RULES?

Strategic Partnerships in response to the COVID-19 situation will be funded according to the same rules defined for standard Strategic Partnerships (see section "Strategic Partnerships in the field of education, training and youth - What are the funding rules"). Project grants for Strategic Partnerships in response to the COVID-19 situation are capped at 300.000 EUR for projects with duration of 24 months.

## OTHER INFORMATION

In addition to the information provided above, more compulsory criteria and additional useful information, as well as project examples relating to this Action can be found in the **Annex I of this Guide**. Interested organisations are invited to read carefully the relevant sections of this Annex before applying for financial support.

## WHAT ARE THE FUNDING RULES?

Strategic Partnerships will range from fairly simple cooperation projects between small scale organisations (like schools or informal groups of young people) to rather sophisticated and large-scale projects focusing on the development and exchange of innovative outputs in all fields of education, training and youth. The expenses incurred by the different types of projects will necessarily vary accordingly.

By consequence, the proposed funding model consists of a menu of cost items from which applicants will choose according to the activities they want to undertake and the results they want to achieve. The first item, "project management and implementation" is a cost item that all types of Strategic Partnerships may apply for, as they are meant to contribute to costs that any project will incur. With the exception of School Exchange Partnerships, Strategic Partnerships may also apply for specific funding to organise "transnational project meetings". The other cost items can only be chosen by projects that will pursue more substantial objectives in terms of intellectual outputs/products, dissemination or embedded teaching, training and learning activities. Additionally, if justified by the project activities/outputs, exceptional costs and costs for participation of persons with special needs can be covered.

The total project grant is a variable amount, defined by multiplying 12 500 EUR by the duration of the project (in months), and capped at 450 000 EUR for projects with duration of 36 months. Exceptionally, for School Exchange Partnerships a ceiling of 16 500 EUR per year and per participating school will apply at project level. Funds for support to participants with special needs, as well as Exceptional costs covering high travel costs will not count towards the funding cap for School Exchange Partnerships.

The budget of the project must be drafted according to the following funding rules (in euro):

**Maximum grant awarded:**

a variable amount, defined by multiplying **12 500 EUR** by the duration of the project (in months) and up to **450 000 EUR** for projects with duration of 36 months;

(Exception: for School Exchange Partnerships: a maximum of **16 500 EUR** per year and per participating school, applied at project level, and excluding Special Needs Support and Exceptional costs for expensive travel)

Some of the maxima amounts indicated in the tables above are capped per month and are calculated following a pro-rata approach, so that the grant awarded divided by the number of months results in a maximum of 12 500 EUR. However, the beneficiaries can use-up the total EU grant received for the project in the most flexible way, throughout its duration and according to the way the activities need to be implemented chronologically in the work plan.
